

Showcase Seafood in its Best Light with Promolux LED Solutions

Extend Shelf Life: Reduce Spoilage & Waste with **Safe Spectrum Technology**®

Promolux LED lighting is the ideal solution for supermarkets and seafood markets aiming to improve seafood display longevity and minimize waste. Using Safe Spectrum Technology®, Promolux LEDs reduce photo oxidation, preserving the freshness and vibrant colors of fish, shellfish, and other seafood.

Key Benefits of Promolux LED Lighting for Seafood Displays

01 Prevent Seafood Oxidation and Spoilage

- Advanced Safe Spectrum Technology® minimizes photo and lipid oxidation, maintaining seafood freshness, natural texture, and vibrant colors like deep pinks and rich whites.
- Reduce off-putting odors by preserving seafood's clean, ocean-fresh appeal.

02 Enhance Visual Appeal with High CPI

- Promolux LEDs highlight natural colors with the highest Color Preference Index, ensuring your seafood—from shimmering shrimp to vibrant clams—appears its best.
- A visually stunning seafood department builds trust and inspires customer confidence.

03 Minimize Shrink and Maximize Profitability

- By preserving freshness longer and reducing heat exposure, Promolux LEDs extend shelf life, protecting your investment and lowering spoilage-related costs.

Applications Across Seafood Types:

Fresh Fish Displays

Frozen Seafood Displays

Prepared Seafood & Sushi Displays

Shellfish Displays

Keep Seafood Displays Fresh and Appealing with Promolux LED Lamps

Promolux LED lamps offer the best solution for seafood display cases in supermarkets and seafood markets, helping to extend shelf life, reduce shrink, and maintain the visual appeal of your seafood. By minimizing photo oxidation and providing the highest CPI color accuracy, Promolux lighting ensures your seafood displays consistently look their best while reducing waste.

Our LED lighting is being requested for a number of applications, such as:

Bakery, Chocolate & Candy, Dairy, Deli, Desserts, Ice Cream & Gelato, Food Services, Wine & Beer, Prepackaged, Produce, Meat, Seafood, Art, Car Display, Clothing, Cosmetics, Flowers, Jewelry, Medical, Graphic Printing, High-End Home

Easy Integration & Energy Efficiency for Supermarkets and Seafood Markets

01 Seamless Retrofitting

Promolux LED lamps can be easily installed into existing seafood display cases, making upgrades simple and cost-effective.

02 Energy Efficiency and Cost Savings

These energy-efficient LEDs help reduce electricity costs while maintaining optimal conditions for seafood.

03 Long-Lasting Durability

Promolux LEDs have a long lifespan, reducing the need for frequent replacements and minimizing maintenance costs.
